

# Let's Talk!

**Virtual and In-person Let's Talk** is a program that provides Wayne State University students with the opportunity to seek free, private, *virtual* and *in-person* drop-in consultations using Zoom with a professional counselor from Counseling and Psychological Services (CAPS).

For Virtual Let's Talk, click on the relevant link to access a Zoom meeting with a counselor. Students are seen individually on a first-come, first-served basis. There may be a wait in the virtual waiting room if the counselor is seeing another student. Please wait and we will be with you as soon as we

Students can attend any of the sessions. No need to be affiliated with the department hosting the site!
