

# Radiologic Technology

BACHELOR OF SCIENCE DEGREE

## A Look Inside

Radiologic technologists are healthcare professionals who administer prescribed radiation

for the purpose of medical diagnosis. Registered radiologic technologists perform radiographic procedures using technologically advanced equipment to produce 2-D and 3-D images of the tissue, organs, bones and vessels of patients for evaluation by radiologists (physicians who interpret medical images to either diagnose or rule out disease or injury).

- **\$60,510 median annual wage in 2019**
- **Number of jobs in 2019: 250,700**
- **Job growth through 2029: + 7% (above average)**  
- U.S. Bureau of Labor and Statistics

- Our students have a 100% job placement rate, within 12 months, post-graduation
- Over the last 5 years, 98.4% of graduates passed the national registry exam on the 1<sup>st</sup> attempt
- WSU Radiologic Technology students have 30 hours of clinical experience every week
- Students may earn additional certification in Computed Tomography or Mammography during the course of the program (must maintain academic/attendance requirements).
- Classes are integrated with clinical education hours.
- Peer mentors are available to all students
- There are active student chapters for:
  - The Michigan Society of Radiologic Technologists (MSRT)
  - American Society of Radiologic Technologists (ASRT)
- Information meetings for prospective students are held on the first Tuesday of each month at 6 P.M. in the Eugene Applebaum College of Pharmacy and Health Sciences building, 259 Mack Ave., Detroit, MI 48201
  - Register to attend at [cphs.wayne.edu/info](http://cphs.wayne.edu/info)

Eugene Applebaum  
College of Pharmacy  
and Health Sciences

All clinical rotations are performed exclusively with Henry Ford Hospital's Main Campus in Detroit

## Multiple Modalities

There are many different types of imaging careers to pursue as a radiologic technologist. These include:

- **Radiography (X-ray)**
- **Fluoroscopy**
- **Computed Tomography**
- **Mammography**
- **Magnetic Resonance Imaging**
- **Interventional Radiography**

**Application Deadline**  
**December 15**

"I love the program! I am amazed by how much I have learned and experienced within the past two years of the program. I have had the opportunity to work alongside registered radiologic technologists, doctors and many other personnel at Henry Ford Hospital in Detroit."

-Madisyn Aleks

"With the help of Henry Ford Hospital, all the technologists, our program director and clinical coordinator, I am fully prepared to become a Rad Tech. I have also created a family within Henry Ford Hospital and with my classmates, who made the program so much more memorable. I have enjoyed the program and seeing how much I have grown in almost two years."

-Laylia Ali
